To whom it may concern:

ACD RotoFlo hereby confirms that all base polymers are sourced from Sasol Polymers. These grades all conform to Food and Drug Administration (FDA section: 117.1520-31a).

All ACD RotoFlo Rotational Moulding grades conform to FDA regulation and international potable water and food contact regulations. We confirm that no recycle polymers are used in the production of these grades.

C. Robertson

Managing Director
